

Skytech AFVK-SP-SPLIT Manual Hi/Lo Split Spark to Pilot Gas Valve Kit

The Skytech AFVK-SP SPLIT electronic safety pilot system was developed to provide safe, reliable, user-friendly control for gas heating appliances. The intermittent pilot ignition (IPI) gas valve kits are set up for natural gas (NG) only and are designed to be used with 18 to 30-inch gas log sets. Optional propane (LP) gas conversions kits LPK-18 or LPK-24 are available. The AFVK-SP SPLIT features a manual Hi/Lo gas valve and a remote control with On/Off function and On/Off continuous pilot. This gas log safety pilot is divided into two sections, the gas valve box and the switch box. Both boxes are pre-assembled and ready to install. With each box on separate sides of the gas log burner pan it enables the log set to be centered inside the fireplace. The valve box contains gas valve and pilot

assembly and the switch box contains an electronic module and battery pack. Both boxes are joined together with a hi-tempered wiring harness.

Features:

- Spark to Pilot Kit measures 3 3/4" W X 5 1/2" D X 5 1/2" H
- Manual flame adjustment on valve
- Continuous pilot switch on valve and remote control
- Designed to be used with 18 to 30-inch gas log sets
- Gas log safety pilot is divided into two sections, the gas valve box and the switch box
- Propane conversion kits are available (purchase separately)

You will receive:

- Valve box
- Switch box (battery pack, module and switch)
- Pilot assembly
- Installation instructions
- RS-1A Heat shield
- On/Off Remote Control with On/Off continuous pilot
- Damper clamp
- Stainless steel flex line
- Batteries

Additional Information

Manufacturer	Skytech
Condition	New
Special Price	\$480.00

WARRANTY

American Flame warrants the AFVK-SP-SPLIT VALVE KIT SYSTEMS for 12 months from the date of purchase or installation to the original purchaser to be free from defects in materials and workmanship. Damage to the AFVK-SP-SPLIT VALVE KIT SYSTEMS caused by accident, misuse, abuse, or installation error, whether performed by a contractor, Service Company, or owner, is not covered by this warranty. American Flame will not be responsible for labor charges and/or damage incurred in installation, repair, replacement, or for incidental or consequential damage. Some states, provinces, and nations do not allow exclusion or limitations of incidental or consequential damages, so the above limitations or exclusions may not apply. This warranty gives you specific legal rights. You may also have other rights that vary by state, province, or nation.
